## TO ALL OUR CUSTOMERS

1. NEWS: MINI - TRUNKINGS SYSTEM

The range of mini-trunkings has been completely renewed. This series is now manufactured with new and interesting features. Specific documentation will be forwarded to you in the next days.

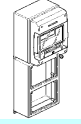

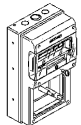

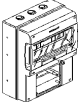

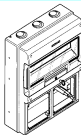

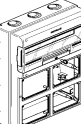

2. NEWS: OMNIA SERIES WITH FUSE CARRIER BASE

The version with fuse carrier is now available for both 16A and 32A, in the IP44 and IP67 versions. Sizes are the same as the current version. The 16A is available both in flush mounting and surface mounting versions, while the 32A is available only in flush mounting version.
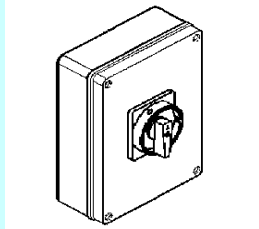

Art. 501.xxxx and 506.xxxx ✓ 16A, ✓ IP44 and IP67	
Art. 401.xxxx and 406.xxxx ✓ 16A and 32A ✓ IP44 and IP67	

Here below are summarized all Scame boxes, suitable for installing the new range OMNIA interlocked switch socket outlets with fuse carrier.

	Catalogue Number	Box	Installation
	Art. 572.0310	Surface Mounting Box IP 67	**16A**
+	Art. 572.0200 Art. 572.0220	Flush Mounting Box Frame	**16A and 32A**
	Art. 572.0311 (6 mod. DIN)	Surface Mounting System	**16A and 32A**
	Art. 672.1200	Modular Enclosure IP55 M150 Domino series	**16A and 32A**
	Art. 672.2200 and Art. 672.UK2200 (8 mod. DIN)	Modular Enclosure IP55 M340 Domino series	**16A and 32A**
	Art. 672.3200 and Art. 672.UK3200 (12 mod. DIN)	Modular Enclosure IP55 M400 Domino series	**16A and 32A**
	Art. 672.4216 (16 mod. DIN)	Modular Enclosure IP55 M400 Domino series	**16A and 32A**
	Art. 672.5416 (18 mod. DIN)	Modular enclosure IP55 M550 Domino series	**16A and 32A**

3. CATALOGUE CODES FOR ISOLATORS 100A

The new 100A ISOLATORS codes are now available.
	Description	Catalogue Number
	ISOLATORS 100A, 3 poles for emergency use	**590.EM10003**
	ISOLATORS 100A, 4 poles for emergency use	**590.EM10004**
	ISOLATORS 100A, 3 poles for standard use	**590.GE10003**
	ISOLATORS 100A, 4 poles for standard use	**590.GE10004**

4. NEW: ONE WAY ADAPTOR ART. 610.381
Art. **610.381** is now available with a socket UNEL (German standard) and a IEC309 plug 2P+E, 16A. The socket outlet is equipped with a cover ensuring the IP44 protection degree when the plug is not connected.

5. COMPACT ADVANCE 16A AND STANDARD ADVANCE 16 AND 32A

In our ADVANCE series , socket outlets with interlocked switch (families 542, 544, 545, 547, 550, 551, 552, 555, 556, 557, 558, 559), the isolator switch has been replaced by another one having innovative features. The fuse is not inserted by a Edison screw, but it is now connected by a very simple snap action. Thanks to this modification, fused 10,3x38mm can be used in 32A as well as in 16A socket outlets. This modification makes the fuse change operations easier and allows increasing the socket electrical performances: less dissipated heat and better operation performances (AC23).

Article Codes remain unchanged.
