

TO ALL OUR CUSTOMERS

1. NEW PRODUCTS: CUBIK SERIES DERIVATION BOXES

CUBIK Series, the new range of derivation boxes, is implemented.

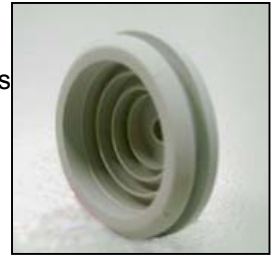

The outstanding features of new products are as follows:

- 3 sizes with snap on cover
- 3 sizes with ¼ -turn screw cover
- Version with glow-wire 650°C (Halogen Free)
- Version with glow-wire 960°C (also in red colour)
- Degree of protection: IP55
- Working temperature: -25° / + 60°C
- Mechanical resistance: IK07 at 20°C
- Wall fixing: for the first 3 sizes, through 2 breakable slots or M7 threaded anchor
- For the other 3 sizes, through 4 breakable slots or 4 slots placed out of gasket
- Sizes with 1/4 –turn screw cover show the OPEN-CLOSE expression
- Taps for complete insulating are supplied
- All sizes are equipped with non losable covers

- Internally the cable sleeve adheres to the pipe/cable in a reliable way
- The cover has some lines printed inside so that the installer can make some notes
- GW960°C versions have been also designed (also in red)

Information brochure with codes and sizes is available in the PDF version at the following web page:

British version: <http://www.scame.com/doc/ZP00589-GB-1.pdf>

Spanish version: <http://www.scame.com/doc/ZP00589-E-1.pdf>

2. NEW: SURFACE MOUNTING BOX FOR 125A INLETS

The offer for IP67 empty surface mounting boxes for industrial inlet securing is implemented with the 125A version.

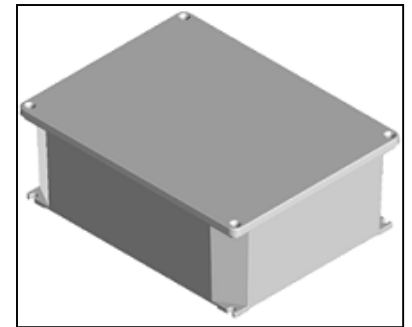

Description	Item Code
