

TO ALL OUR CUSTOMERS

1. NEWS: NEW 20-32-40A THERMOPLASTIC ENCLOSURES FOR THE ISOLATORS SERIES

The thermoplastic ISOLATORS series offer has been expanded, introducing a range of products for 20, 32 and 40A switches. Substantially a new casing has been created having smaller dimensions with respect to the current casing, which however remains normally in production.

**Current product
(remains normally in production)**

New product

The dimensions of the new casings conform to those of the 20, 32 and 40A metal version.

Dimensions of the new casing: 105x150x82mm.

The entrances are knock out type: 1xM20 + 1xM25 (both on the upper as well as lower sides).

The IP degree of protection of the new casing is identical to that of the versions currently in production: IP65.

The electrical characteristics of the switch disconnecter also remain identical to those of the versions currently in production.

The following new items have been created:

Thermoplastic versions				Catalogue Number	
AC22A Rated current	Degree of protection	Enclosure dimensions (mm)	Poles	Emergency switching 	General use 
20A	IP65	105 x 150 x 82	2	590.EM2012	590.GE2012
			3	590.EM2013	590.GE2013
			4	590.EM2014	590.GE2014
32A	IP65	105 x 150 x 82	2	590.EM3212	590.GE3212
			3	590.EM3213	590.GE3213
			4	590.EM3214	590.GE3214
40A	IP65	105 x 150 x 82	2	590.EM4012	590.GE4012
			3	590.EM4013	590.GE4013
			4	590.EM4014	590.GE4014

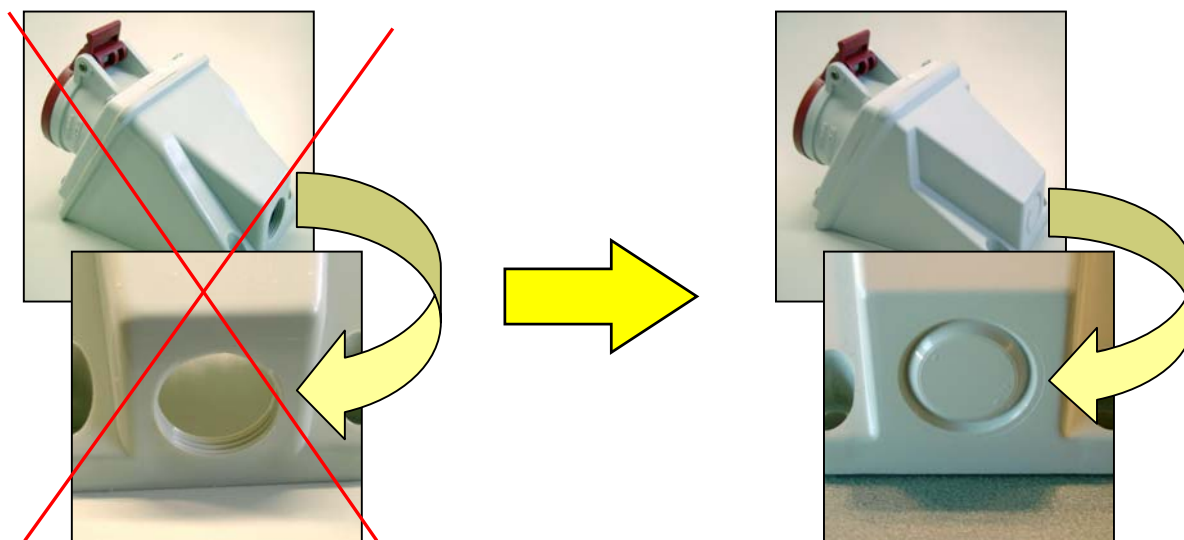

2. PRODUCT MODIFICATION: KNOCK OUT FOR ANGLED SURFACE MOUNTING SOCKETS

The entrances of the IEC309 Series and EUREKA Series angled surface mounting socket boxes have been modified. They will no longer be threaded, but will be of the knock out type.

The products concerning the modification are the 2 boxes, respectively for the 16A and 32A sockets, in both PG version and the metric version:

Description	Catalogue Number
Angled surface mounting sockets, rated voltage >50V	512.xxxx and 512.Mxxxx 517.xxxx and 517.Mxxxx
Angled surface mounting sockets, rated voltage <50V	530.xxxx and 530.Mxxxx 535.xxxx and 535.Mxxxx
Empty angled surface mounting sockets boxes	570.0116 and 570.M0116 570.0132 and 570.M0132

Attention: the catalogue numbers remain unchanged.

The new boxes will have respectively:

- 16A versions (small box): PG16 or M20 knock out entrance according to the version
- 32A versions (large box): PG21 or M25 knock out entrance according to the version

All the IP44 products (512.xxxx, 512.Mxxxx, 530.xxxx, 530.Mxxxx) and the empty boxes (570.0116, 570.M0116, 570.0132 and 570.M0132), will be equipped with a series of cable sleeve that will be PG16, M20, PG21 or M25 according to the enclosure.

3. NEWS: NEW COLLAR CONDUIT CLIPS

With the new collar conduit clips in thermoplastic material, the SCAME offer of conduit fixing accessories has been expanded. The new conduit fixing accessory is suitable for fastening conduit with a diameter of 16, 20, 25, 32, 40 and 50 mm.

The following items have been added to the current production:

Description	For conduit Ø mm	Catalogue Number
Collar clip	16	860.1516
	20	860.1520
	25	860.1525
	32	860.1532
	40	860.1540
	50	860.1550

Technical characteristics:

- Snap closure system, cable tie type.
- Colour: grey RAL 7035.
- Opening operation easier by the screwdriver seat (cross-slot).
- The wall fastening position can be adjusted thanks to the special slot.
- Realized with halogen-free thermoplastic material.

4. PRODUCT OUT OF PRODUCTION: COLLAR TUBE CLIPS

The new range of collar conduit clips replaces the following products, which are placed out of production:

Description	For conduit Ø mm	Catalogue Number
Collar tube clip	16	860.1416/G
	20	860.1420/G
	25	860.1425/G
	32	860.1432/G

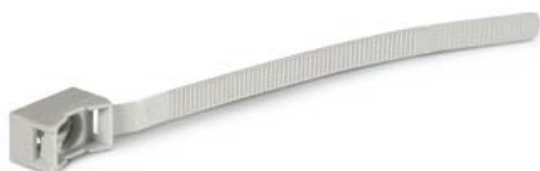

5. NEWS: NEW STRAP CLIPS

The SCAME offer of conduit fixing accessories has been expanded, introducing new collar clip for conduit cable tie type.

The new clips are suitable for fastening conduits with diameter 13-32 and 40-63 mm.

Description	For conduit Ø mm	Catalogue Number
Collar clip cable tie type	13-32	860.1616
	40-63	860.1640

6. NEWS: PLUG RETAINER FOR CUBIK SERIES

There has been created and included in the catalogue a plug with M7 threading, suitable for fastening the CUBIK Series boxes to the wall - the CUBIK versions with snap closure (up to the dimension 80x80x40).

Description	Catalogue Number
Plug retainer for CUBIK Series boxes with snap closure	654.0022

Technical characteristics:

- Material: thermoplastic
- Diameter of the threaded part for the fastening of the box: M7
- Diameter of the plug (for the drilling of the wall): 8mm
- Length of the plug: 40mm
- Colour: RAL7035

7. NEWS: NEW CONDUIT COUPLING ACCESSORIES, FLEXIBLE BENDS

The SCAME offer of conduit coupling accessories has been expanded, introducing new conduit-conduit and conduit-box coupling: flexible bends and flexible couplings for the conduit-box coupling.

The new accessories are suitable as coupling for conduit with diameters of 16, 20, 25, 32, 40 and 50 mm.

Description	For conduit Ø mm	Catalogue Number
Conduit-conduit couplings flexible bends	16	864.2016
	20	864.2020
	25	864.2025
	32	864.2032
	40	864.2040
	50	864.2050

Description	For tube Ø mm	Threading	Assembly hole Ø mm	Catalogue Number
Conduit-box couplings flexible couplings	16	M16x1.5	16÷18	864.9016
	20	M20x1.5	20÷22	864.9020
	25	M25x1.5	25÷28	864.9025
	32	M32x1.5	32÷35	864.9032
	40	M40x1.5	40÷44	864.9040
	50	M50x1.5	50÷54	864.9050

Technical characteristics:

- Material: thermoplastic
- Degree of protection: IP65
- Colour: RAL7035

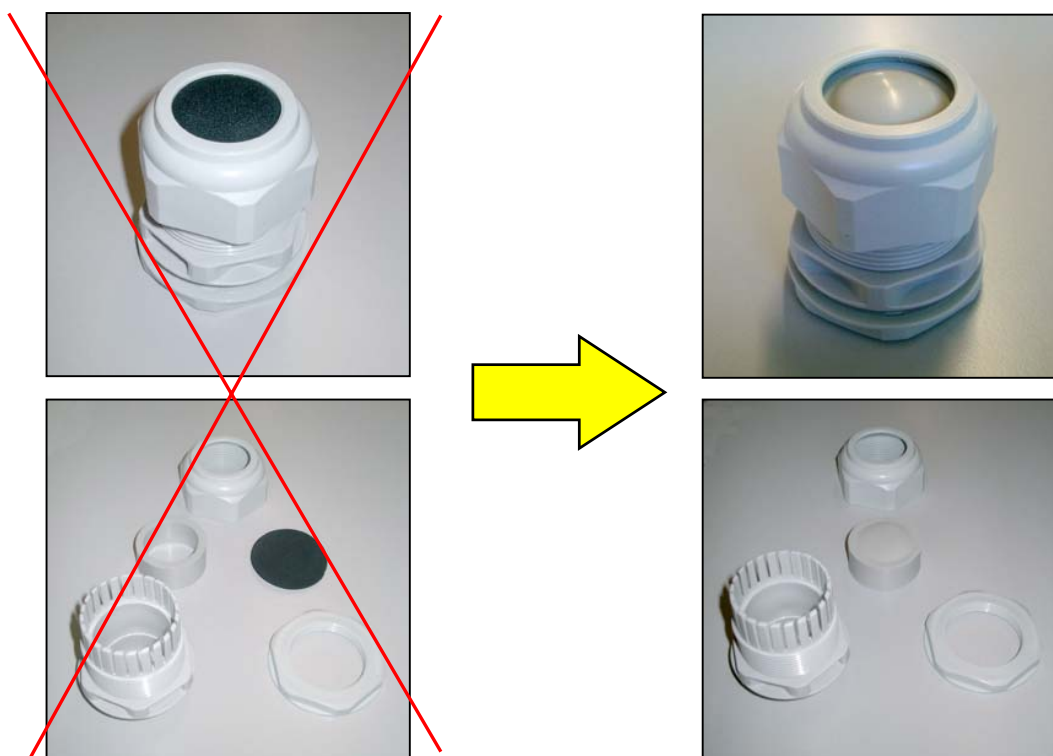

8. PRODUCT MODIFICATION: NEW MEMBRANE FOR METRIC AND PG CABLE GLANDS

The gasket of the membrane cable glands has been modified: the membrane will no longer be independent, but is realized in a manner integral with the gasket of the cable gland. The membrane is easily pierceable by cables or tubes.

The items concerned by the modification are all the cable glands equipped with membrane:

Description	Catalogue Number
LIGHT Cable glands, PG outlet with membrane and nut	805.334x.1
LIGHT Cable glands, metric outlet with membrane and nut	805.54xx.1
LIGHT Cable glands, PG outlet with membrane and no nut	805.334x.2
LIGHT Cable glands, metric outlet with membrane and no nut	805.54xx.2

Attention: the catalogue numbers remain unchanged.
