

TO ALL OUR CUSTOMERS

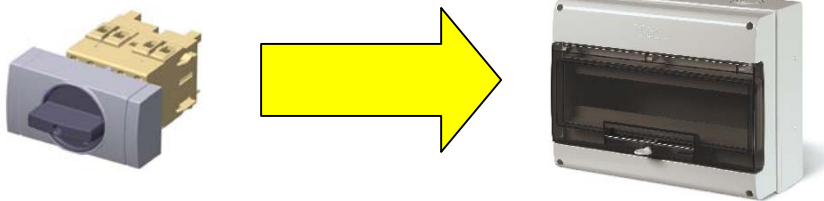

NEW 1. DIN GUIDE FACING FOR 16A, 32A and 40A SWITCH-DISCONNECTORS

Scame has also introduced a new direct control with DIN guide facing for 16A, 32A and 40A switch-disconnectors.

DESCRIPTION	COLOUR	PACKING QUANTITY	CATALOGUE NUMBER
DIN guide facing		1/10	590.YMDIN

This new control with facing allows the switch-disconnector to be used on a DIN guide. The facing covers the DIN slot and thus avoids dangerous situations or the accidental introduction of foreign bodies inside the switchboard/electrical panel.

NEW 2. 70x87 FRONT CONTROLS FOR SWITCH-DISCONNECTORS

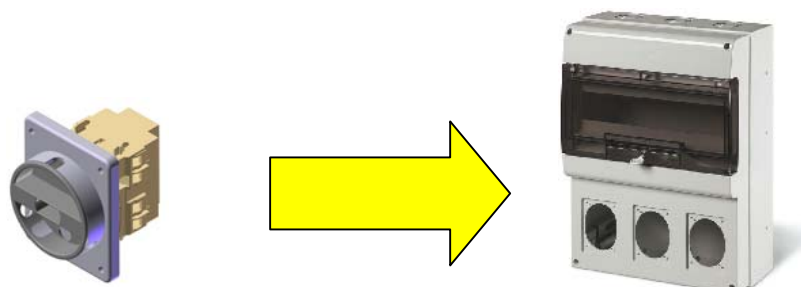

New front controls for switch-disconnectors have been introduced. These new controls are suitable for use with 16A, 32A, 40A, 63A, 80A switch-disconnectors.

70X87mm FRONT CONTROLS

DESCRIPTION	FOR SWITCHES	KNOB	FRONT PLATE	PACKING QUANTITY	CATALOGUE NUMBER
	16A, 32A and 40A			1/10	590.YM70R1
For R modules				1/10	590.YM70R2
	63A and 80A (*)			1/10	590.YM70R6
				1/10	590.YM70R7

(*) the 590.YM70R6 and 590.YM70R7 can be used only on the cutout with indents for fastening 32A flush mounting sockets

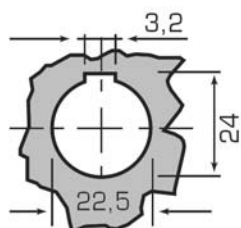

NEW 3. 22mm-DIAMETER FRONT CONTROLS FOR SWITCH-DISCONNECTORS

New front controls for switch-disconnectors have also been introduced which fasten onto the panel/switchboard by means of simple 22mm-diameter holes. The installation is quick and easy.

These new direct controls are suitable for use with 16A, 32A, 40A, 63A, 80A switch-disconnectors.
