

## TO ALL OUR CUSTOMERS

NEW

### 1. MBOX3 – MBOX5 BUILDING SITE PANELS

The SCAME supply of building site panels has now been expanded with the introduction of the MBOX3 and MBOX5 panels. Made of impact-resistant thermoplastic material, these enclosures are suitable for electric power distribution in building sites with installed power up to 55 kW. Especially suited for electrical maintenance works, these par excellence enclosures represent basic equipment that every construction company and electrical installation firm should have. Suited for specific use in small and medium-sized construction sites, the MBOX series units are also used in heavy industry, agriculture and all those sites where superior resistance to impacts, weather and chemical agents is required.

Main features;

- Versions:
  - ✓ portable (with sockets, protections, fixed power supply plug, power supply terminal box)
  - ✓ wall-mounted (with sockets, protections, power supply terminal box and wall-fastening brackets)

## 2. LIGHT CABLE GLAND GAS THR.

Scame expands its product range of GAS through cable glands, consisting in the Heavy Duty version already present in the catalogue, with the addition of the classic Light version, suitable for use under non-demanding conditions. Thus the product range is enhanced by a quality/price ratio which has a significant competitive advantage over main competitors.

DESCRIPTION	GAUGE	PACKAGE / BULK PACK	CATALOGUE NUMBER
LIGHT cable gland complete with IP66 nut	1/4"	50/600	<b>805.7340</b>

**3. INSULATED WIRE CONNECTORS 25 mm<sup>2</sup>**

Scame consolidates its sector leadership by completing its product range with the 25mm<sup>2</sup> wire connector.

This wire connector, available in the transparent single-pole version, has now been added to those already in the catalogue, thereby completing the series: 1.5 – 2.5 – 4 – 6 – 10 – 16 – 25 – 35 mm<sup>2</sup>

Made in Italy

DESCRIPTION	NOMINAL SIZE	COLOUR	PACKAGE BULK PACK	CATALOGUE NUMBER
T85 insulated wire connector	25 mm <sup>2</sup>	Transparent	10/100	<b>810.425/TR</b>

**NEW**

**4. CANDLE COVERS**

The new code CP differs from the previous code CR only by the reduction of the sleeve diameter (reduced from 30 mm to 25 mm), due to the elimination of the internal tabs for fixing the lamp holder. In the new version the lamp holder is retained directly by the sleeve.

The product's appearance remains unchanged: the two versions provided, "antique" and white, are practically identical to the previous versions.

**OUT OF PRODUCTION**
