

**TO ALL OUR CUSTOMERS**

**NEW**

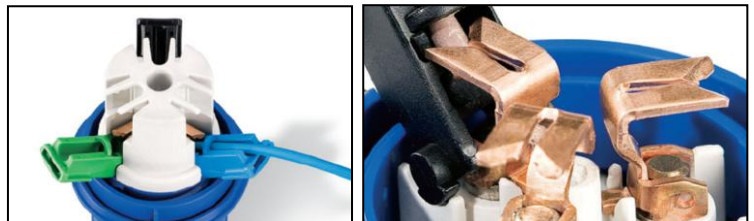

**1. PLUGS AND SOCKETS FOR INDUSTRIAL USE – OPTIMA SERIES**

SCAME has added the new OPTIMA Series to its line of industrial plugs and sockets. These are 16A-32A-63A-125A mobile plugs and sockets and 16A-32A fixed inlets.

The main technical features are:

16A products available with insulation piercing terminal.

A single device that functions as a cable clamp and cable gland in the same time, protected to IP66 / IP67 standards (for all versions, including 63A and 125A).

Versions 16A and 32A IP44 are equipped with a cable gland.

The unit between the body and the grip on the 16A and 32A products features a stainless steel, snap-on spring.

It is closed by simply turning the body in the housing, and opened by means of a tool (such as a screwdriver) to release the spring.

Black versions are available which are particularly useful in public venues such as concerts, theaters, exhibition stands, discotheques, etc.

2P+T 16A versions with transparent grips are also available.

The products are made with halogen-free plastic materials.

Please contact SCAME for documentation, item numbers, availability and prices.

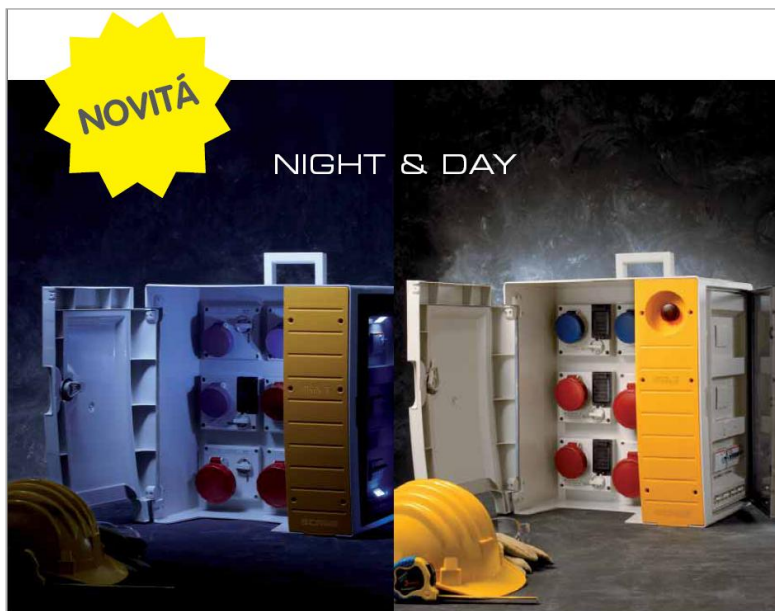

**NEW**

**2. MBOX SERIES LIGHTS UP A NEW ERA (MBOX SERIES NIGHT & DAY)**

The panels are equipped with an automatic device that illuminates the socket compartment and the protection and control compartment at night time, allowing the product to be seen and used in dim lighting conditions.

The compartments are lit by a high-efficiency, low-consumption LED system which is controlled by an electronic card connected to a photosensor. It is ideal for basements, camping and parking areas.

The automatic lighting device is supplied as standard equipment in the assembled MBOX 3-5 versions but supplied only upon customer request in the MBOX 2 versions. It is NOT supplied in the public venue versions and empty versions.

**NEW**

**3. HORIZONTAL 4-MODULE EQUIPMENT BOX**

The WADO series skirting trunking has been expanded to include a horizontal 4-module wiring accessories box.

This is especially useful for standard European electrical sockets (German, British, French) so it can also be used internationally.

Similar to the 2-, 3- and 6-module versions, the new box is available in white, anthracite grey and brown.

The latest SCAME catalogue also carries the equipment accessories and plate.

The 3-, 4-, and 6-module versions are available in anthracite grey, ivory and white and are suitable for use with all the Evolution series modular devices.
